

IF YOU PLAN TO SHARE YOUR LIFE WITH A COMPANION ANIMAL, *build the home it needs*

Check these points to ensure *a tenencia do teu animal exótico sexa responsable*

The life expectancy varies a lot depending on the species, from the 3 years that hamsters usually live to the 50 years that parrots can reach. Bear it always in mind since the **commitment is for the animal's entire life**.

There are **vets specialised** in guaranteeing the health of exotic animals, don't hesitate to call on one of them to make sure you meet the needs of your companion animal.

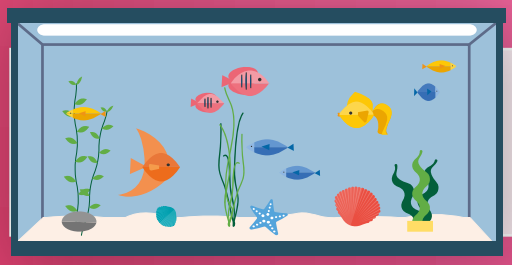

You must make sure that the **animal ownership is allowed** by current regulation. Remember that **abandoning an animal is a serious offence** and it can be dangerous for biodiversity if you free it in the environment.

During the journey to the vet, you can cover the **carrier, terrarium or cage** in order to minimise the stress suffered by these animals.

If you are going to travel, make sure someone **regularly checks** there have been no breakdowns or power failure that could affect the **functioning of the automatic maintenance systems** of the aquariums or terrariums.
