

# My Furry BROTHER

After thinking it a lot and seeing the needs a dog has, my parents have decided to adopt Sam.

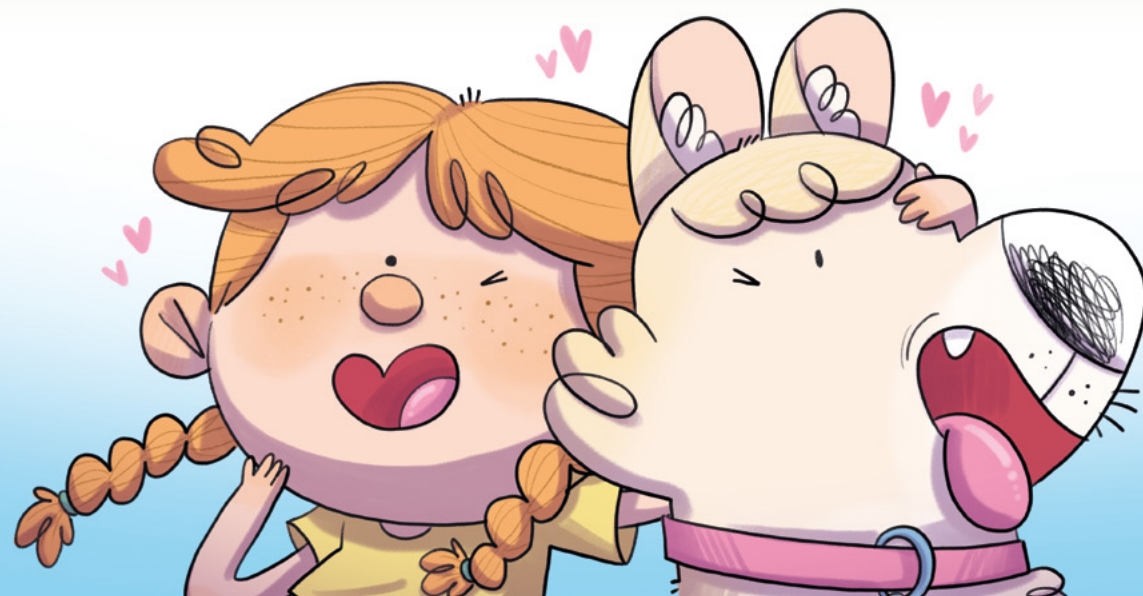

We know it is for life and that we cannot abandon him as his former owners did.

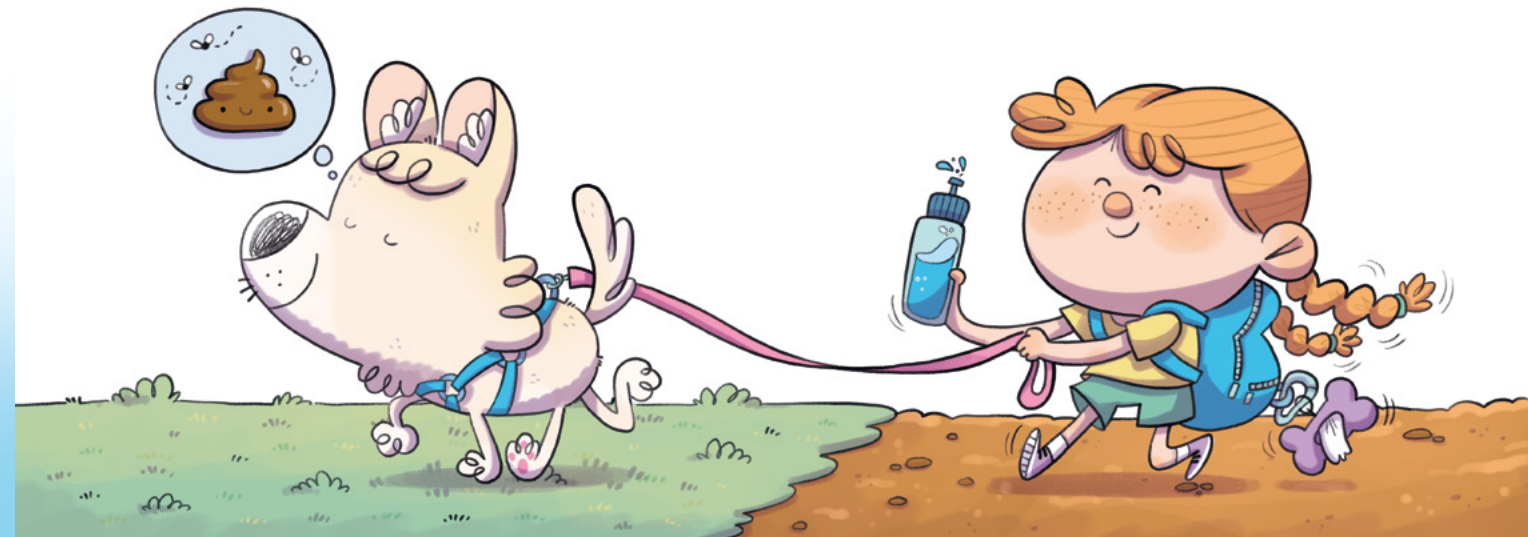

They told us that they caused him lots of pain and sadness, but now this is over because we are going to love him for the rest of his life.

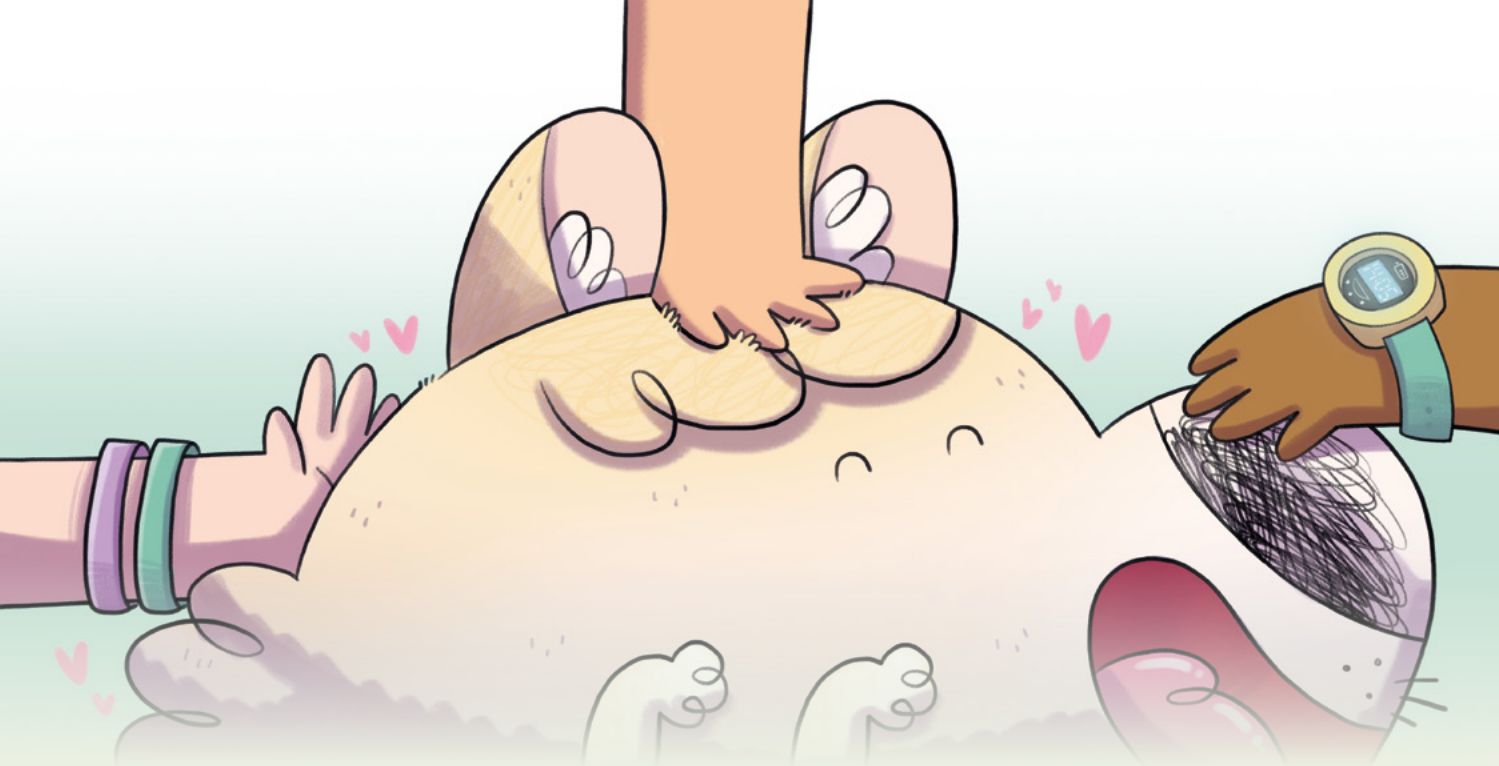

He has become a member of the family; I say he is my furry brother.

When my mum takes me to school, we go through a garden for Sam to pee and poo.

We always carry a roll of bags to pick up his poo and a bottle of water to pour over his wee-wee.  
This way, we help keep the streets clean.

After school, my grandfather and my furry brother pick me up. Sam greets me with licks and wagging his tail, and my grandfather with a big kiss.

My classmates take the opportunity to stroke him carefully, so as not to overwhelm him or hurt him.

When at home, we all eat together. He has his food in his food dish and his water in his water dish. It is very important that his water dish always has clean and fresh water.

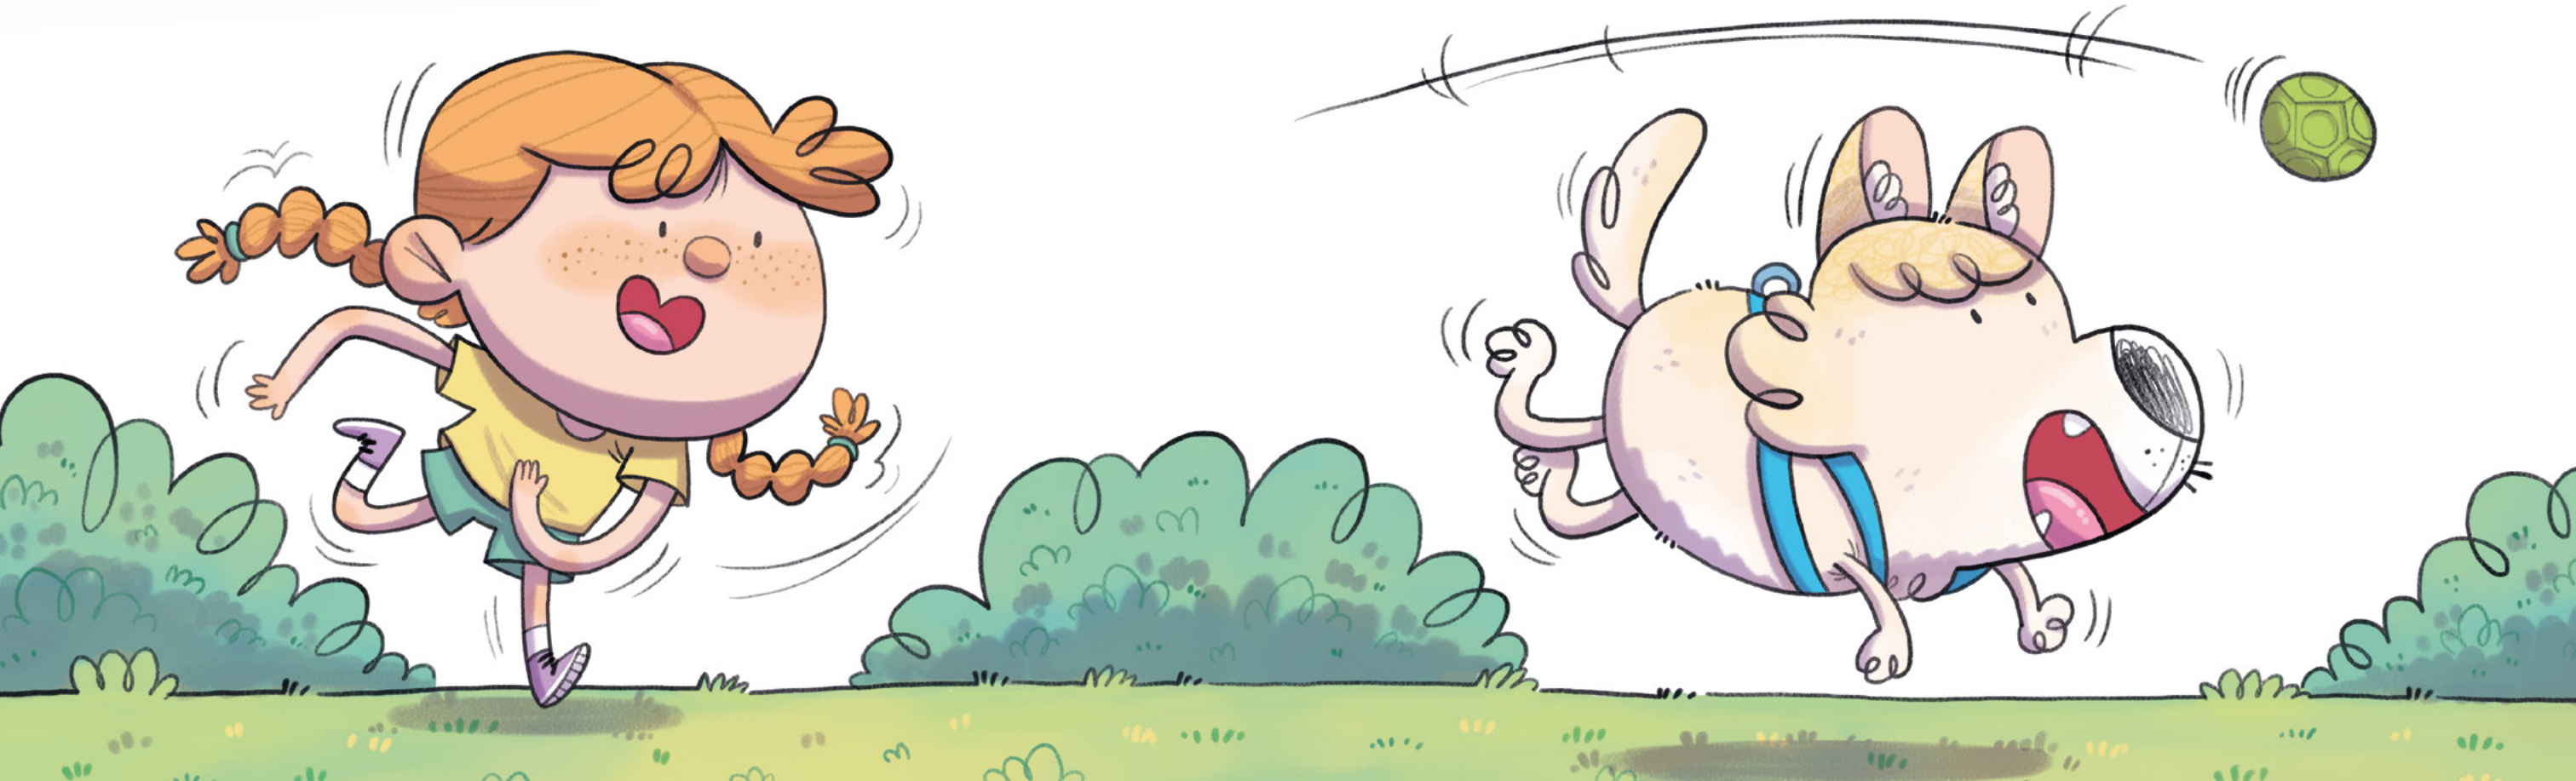

After lunch, we take a nap. When my mother is not watching, I let him climb the sofa with me.

I hurry to finish my homework and have a snack to play with Sam in the park. His favourite game is pick up the ball I throw him.

The ball is not a tennis ball, these are very bad for his teeth.  
The ball has to be a special one for dogs.

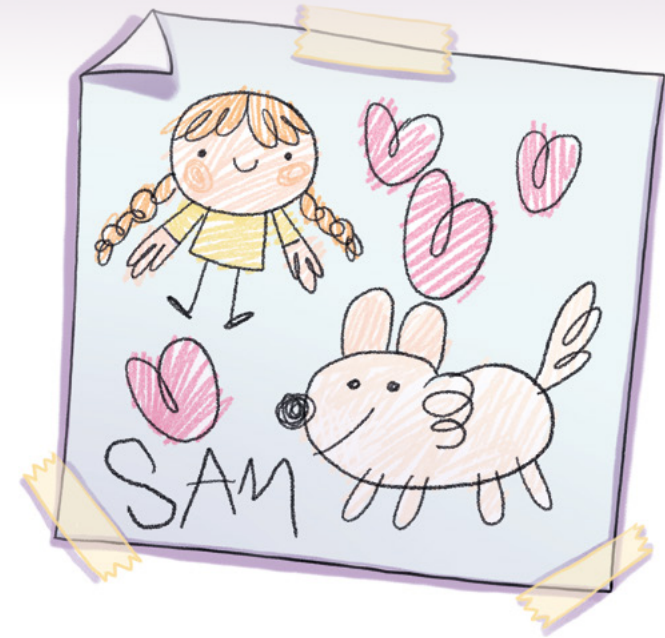

I really like to brush him and take him to the groomer when he is very dirty.

Although I feel very sorry for him, my mum tells me that it is very important to take him to the vet to get him vaccinated so that he doesn't catch diseases.

What about you? Would you like to adopt a dog and take care of it as it deserves?
